## EDUCATION

---

### BSc in software engineering

Addis Ababa Science and Technology University

02/2023 – Present

Addis Ababa

**Relevant Coursework:** Full Stack Development, Database Systems, Object-Oriented Programming, Operating Systems, Data Structures and Algorithms, Machine learning, Fundamental Programming, Distributed Systems

## PROJECTS

---

### Azmeraw-Crop Recommendation AI

An AI-driven crop recommendation model using ML techniques to analyze soil nutrient properties, climate variables, and topographical data, dynamically suggesting optimal crops for diverse agricultural environments.

### Enredada Elders Charity Association

Developed a full-stack CRUD web application for an Ethiopian NGO, implementing RESTful APIs with Node.js, dynamic front-end with React, secure authentication, responsive design, and scalable database integration.

## SKILLS

---

- App and Web development
- ui/ux Design
- Programming
- DSA
- Data Analysis
